25X1

3 June 1968 14 8 69 6 Your attached draft to IPC's nicely covers my original concern as to what ADP Systems they could foresee or were developing that would involve records storage at Your memo should be sent 25X1 without delay. My other concern was to advise the Director of Communications of our proposed expansion study, but I'm sure 25X1 that regularly. At the same time I intended to alert him and his experts of communication possibilities, as yet unknown, by sending him a copy of the IPC memo. Perhaps a simple buck slip copy for info or comment would be adequate and appropriate. 25X1 Buckeling to Director - Communication for my signature pels.
